Each year we present professional development training, conduct quarterly networking mixers, host periodic social events, hold bi-monthly membership meetings and present monthly programs of interest such as "Lunch & Learns" that benefit the membership.

We strongly support black businesses, perform community services, support personal professional development initiatives, exchange job opportunity information, and most important of all - we act as an advocate organization for issues concerning federal, state, and municipal employees.

Our emphasis is clearly on **you**, the government employee. In this era of **change**, manifested by severe budget constraints, dismantling of benefits, lessened emphasis on affirmative action, equal opportunity, and **a** subtle reemergence of racism in the workplace, ask yourself, "**Can I afford not to belong to BIG?..**"

Acknowledgment
